Date of Birth:

Year you wish to enter program: FALL ...

Academic Information:

Undergraduate College:

Degree/Major:

Undergraduate Grade Point Average (for all courses):

Grade Point Average (last two years of courses):

Specialization Selection:

Please read the information on the website (www.exss.unc.edu) describing the Master of Arts degree program and the departmental specializations carefully before making your selection of the specialization to which you are applying (you may apply to

ONLY ONE):

Select specialization from the drop-down box: ...

Please note the following for dual degrees:

- Law and EXSS Sport Administration; you must apply to the Law School separately <https://law.unc.edu/academics/degree-programs/dual-degree/>
- MBA and EXSS Sport Administration; you must apply to the Business School separately. <https://www.kenan-flagler.unc.edu/programs/mba/full-time-mba/academics/dual-degree-mba/>

Assistantships:

****Dual degree candidates are not eligible for assistantships****

Specific assistantship responsibilities may vary from semester to semester over the four semesters of the two year program and also from specialization area to specialization area because funding comes from a combination of sources including the Department of Exercise and Sport Science, Campus Health Services, and The Department of Athletics.

Hepatitis B Virus (HBV) Vaccination Policy:

Hepatitis B immunization is required of all graduate students who participate in clinical and/or laboratory activities, unless contraindicated upon physician's advice. It is required that students complete the HBV three vaccination series prior to the first day of graduate classes. HBV immunization is typically a firm requirement for all students in the Athletic Training and Exercise Physiology specializations, but not required for Sport Administration.

Prerequisites:

Ideal candidates would have an existing foundation in exercise and sport science. Qualified candidates must have completed an undergraduate statistics or research and statistics design course (3-hour credit or higher) with a final grade of B minus or better. Please specify the course that meets this prerequisite below.
